

IPv6 Skill Center in Brittany (France)

**Point6 supports any company
and any organization...**

*... to know more about IPv6
and to access our IPv6 tests platform*

- **Point6** is a bipolar organization – IRISA/INRIA and GET/ENST in Brittany – which aims at supporting you by integrating **IPv6** technologies in your projects, and by preparing you to **IPv6**.
- Others **IPv6** competences are available in Brittany with the CELAR (French Defense skill center) and famous industrial companies.
